What we found out:</p> <ul style="list-style-type: none"> • Decrease in number of students eating breakfast every weekday up the year groups. • A number of students from all year groups consume energy drinks each day • Increase in number of students who usually drink one or more sugary soft drinks a day across year groups. • Increase in number of students viewing an electronic screen in their free time for 7 hours or more on a week day across year groups • Decreases in number of students who exercise vigorously outside of school time at least four hours a week across year groups • Increase in number of students who feel a lot of pressure from the school work they have to do across year groups. • Increase in number of students who go to bed 11.30pm or later when they have school the next day. • Increase in number of students who have taken part on bullying another student in the past couple of months • Increase in students who currently smoke <p>Jess said this is important and we need to let people know. It should get put into the school council newsletter and we should do a power point and a poster. Jess is on the school council and said she would raise it in the meeting and asked for others to go and help put an action plan together. Sam Dylan and Lily put themselves forward to go and help put the posters together.</p>
