

Flintshire County Council has received notification that GHA Coaches will cease trading with effect from 13th July 2016 and will not operate any transport services from tomorrow (14th July)

The Council has given priority to school transport services in the first instance and is working with a number of different bus operators to put temporary arrangements in place; however some services may operate late.

No public services will be covered immediately, but the Council is working on contingency plans to cover services as soon as possible. Further information can be found at <http://www.deeside.com>

Further details will be published on the Flintshire website as up-to-date information becomes available and the following arrangements are confirmed for 14th July 2016.
