Dear Parent/Carer

Student Health & Wellbeing Survey

Our school is a member of the School Health Research Network, led by Cardiff University. As members, we are taking part in the Student Health and Wellbeing Survey during the autumn term. The survey is completed online and the school will receive a Student Health and Wellbeing Report next year.

Overleaf there is a letter from Professor Simon Murphy of Cardiff University explaining the research further.

If you would prefer for your child not to be involved in this survey please contact your child's House Office.

Yours faithfully

Miss. E. McIntyre – Healthy Schools Co-ordinator

September 2017

Dear Parent,

Student Health and Wellbeing Survey

The School Health Research Network is led by Cardiff University in partnership with Welsh Government, Public Health Wales and Cancer Research UK. Every two years, schools in the Network are invited to take part in the Student Health And Wellbeing Survey. The information collected in the survey is used to compile a Student Health and Wellbeing Report for each school. These reports are a valuable resource for schools and support the work they do to protect and improve their students' health and wellbeing.

Your child's school is taking part in the Student Health and Wellbeing Survey this term. The survey is being managed by Ipsos MORI on behalf of Cardiff University and is completed on-line under the supervision of a member of school staff. It contains questions on health behaviours, including diet, physical activity, smoking, alcohol, drugs, school life and relationships. Students in Year 9 and above only will be asked a small number of questions relating to sexual behaviour. Each student chooses whether or not they want to complete the survey and they can omit any question they do not want to answer.

The survey is completed anonymously. Cardiff University use the survey data to compile the Student Health and Wellbeing Reports and for research into adolescent health. The Student Health and Wellbeing Reports contain only aggregated data, e.g. the percentage of Year 7 boys who eat breakfast every day.

I hope that you will be happy for your child to participate in the survey. If you have any concerns, wish to see the survey questions or withdraw your child, please notify school reception as soon as possible.

Yours sincerely,

Professor Simon Murphy
Cardiff University
