

Online application 2019 guidance notes

Please complete the application form carefully making sure all your personal details are correct before you click 'send'.

Date of birth:

Use the picker to select your date of birth, the format displayed is month/date/year. Check it carefully to make sure it is correct.

Parental contact:

Provide us with the name, mobile phone number and email address of one of your parents or other legal guardian.

Choosing your options:

You should choose four subjects from the option blocks A-E. In the option block where you have not chosen a subject you will need to select 'none' as your option.

Remember that these are only your provisional choices and there will be several opportunities to change your options before the start of term in September.

Be aware that the subjects offered in these option lines are a provisional list; the courses will run providing there are a sufficient number of students opting for them.

If the combination of subjects that you wish to select does not fit into the available option lines, you should make your application using your remaining choice of subjects and email Dr. T. Erasmus for advice at the address below.

Double A level subjects:

Further Maths is a double A level subject and you must select this in both option blocks A and E if you wish to study it.

If you want to discuss any aspect of your application, you can speak to a member of the Alun School Sixth Form team by calling 01352 750755 or on the email address below.
